

Jazzir Hussain

+91-9496526595 | jasirhussain2002@gmail.com | linkedin.com/in/jazzirhussain | github.com/jazzirHussain

Full-Stack Engineer with expertise in React, Node.js, TypeScript, and AWS, delivering scalable, testable web applications. Built real-time systems and CRMs serving 5K DAU and 2.4K users with 99.9

PROJECTS

School Management CRM + RFID Attendance System

[LINK](#)

React, Redux, Node.js, Express, MongoDB, AWS EC2, NGINX

- Developed 5 role-based dashboards (Principal, Admin, Faculty, Inventory, Analytics) with reusable **TypeScript and Tailwind components**; reduced development time by 30%.
- Integrated **WebSocket** updates via socket.io; achieved 97% attendance accuracy and generated daily reports in 3 seconds.
- Designed Express APIs with versioned endpoints, **JWT + RBAC security**, and input sanitization; supported 500 concurrent users without downtime.
- Deployed microservices on **EC2 with PM2** clustering and **NGINX reverse proxy**; maintained 99.9% uptime under 500+ requests/second peak load.

EXPERIENCE

Tata Consultancy Services (TCS)

Apr 2025 – Present

PL/SQL Developer – FSCO — ECM Team (Client: Standard Chartered Bank)

- Migrated **PL/SQL** batch jobs to Node.js microservices with BullMQ queues; processed 10,000 transactions daily with **22% fewer errors, saving Rs 3 lakh/month in QA**
- Engineered React admin dashboard with **TanStack Table and WebSocket integration**; lowered debugging time per incident from **2 hours to 90 minutes**.
- Wrote **PLSQL migrations and audit-log triggers**; cut incorrect cases by 30%, preventing Rs 1.2 lakh/month rework.

CIDRIE

Jun 2023 - Dec 2023

Software Engineer Intern

- Worked on MERN analytics dashboard for 6 Muthoot Finance branches; saved **1.5 hours/branch/day (Rs 4.5 lakh annual savings)**.
- Connected **MQTT broker to React frontend via custom hook**; minimised message failure rate by 40%.
- Deployed backend on **AWS EC2 with CloudWatch** monitoring; decreased outages by 30%.

Wizwack PVT LTD

Dec 2021 – Dec 2022

Full-Stack Developer Intern

- Built reusable React components with custom hooks for e-commerce, admin panel, and game UI; cut duplicate code by **40% for 3K–5K DAU**.
- Implemented **Redux Toolkit + RTK Query global state**; real-time leaderboards synced under 500 ms.
- Created **Express APIs with JWT authentication**, role-based access, and versioned routes; blocked all unauthorized access during testing.
- Optimized **Firebase Firestore** with batched writes and composite indexes; lowering **API latency from 250 ms to 100 ms**, boosting session duration 18%.
- Wrote **Jest**, React Testing Library unit tests and **Cypress e2e tests**; prevented 12 production bugs.

TECHNICAL SKILLS

Frontend: React (Hooks, Memo), Redux Toolkit, Next.js, TypeScript, TailwindCSS, WebSocket

Backend: Node.js, Express.js, REST APIs, Firebase Functions, Microservices, JWT, RBAC

Testing: Jest, React Testing Library, Cypress

Databases: MongoDB, PostgreSQL, MySQL, Firebase Firestore

Cloud & DevOps: AWS (EC2, S3, Lambda, CloudFront, Route53), NGINX, PM2, Git, Linux

Other: Python, MQTT, Redis, Stripe, Mixpanel

LEADERSHIP / EXTRACURRICULAR

- Implemented Python-based motor-skill game for 40 differently-abled students; 85% completion rate and 60% therapy adherence improvement.
- Redesigned IEEE and IEDC landing pages using React + Tailwind; boosted registrations 1,200 → 1,600 (35% increase).

EDUCATION

Muthoot Institute of Technology and Science	2020 – 2024
<i>Bachelor of Technology in Computer Science with AI</i>	<i>CGPA:8.72</i>
